

# Melbourne @ 5 Million: The Public Transport Implications

- “All part of the plan”
  - Which journeys does VTP really cater for?
  - What mode of transport for which journeys?
  - Re-doing what we’ve done before (with same results?)
- The ‘right’ and ‘wrong’ urban density?
  - 100 per hectare + 1% mode share = ?
  - 12 per hectare + 20% mode share = ?
  - LA’s density, Vancouver’s sprawl, and the outcomes
- ‘Metro’ and ‘commuter’ models of PT service
  - The importance of networks
  - Every 10 minutes to everywhere
